Experience

Lab Monitor at Full Sail University

October 2013 - Present

Aid students with assignments, provide moral support for those who have upcoming deadlines, and supervise labs as students work.

Senior Front-End Developer at Portlight

May 2014 – January 2015

Design and develop a custom e-commerce platform. Through the use of NodeJS, Express, EJS, MySQL, JavaScript, CSS3, Sass, and HTML5 we were able to construct a truly unique experience. My responsibilities were for the look and feel as well as the development of the front-end of the website. Working directly with the Senior Web Developer and CEO to build the best experience for our customers. In my time at Portlight we have managed to hire an additional 7 developers growing the first web development team for Portlight.

Graphic Designer at PTE Golf

November 2013 – May 2014

Create client logo's for placement of a variety of products offered. Photograph new products and edit photographs for use through PTE documentation to include magazines, brochures, catalogs, letters, and emails. Construct HTML e-mail for both mass and targeted client e-mail marketing campaigns. Website alterations and updates as they were required.

Photographer at Gump's Sports Photography

August 2013 - October 2013

Seasonal sports portrait photographer

Graphic Artist at ATEC Hospitality

February 2013 - October 2013

Creation of logos, the layout of advertising materials such as brochures, catalogs, flyers and print ads and image creation for advertising materials.

Photographer / Graphic Designer / Web Developer at DMA Event Productions
July 2012 - October 2012

Responsible for all aspects involved in creating rack cards and brochures for hotels throughout the South East US. Photo Shoot ==> Design ==> Excise ==> Print

Chief Maintenance Supervisor and Quality Assurance Representative at United States Marine Corps

February 2007 - November 2011

Team Leadership

- Lead and trained over 150 personnel ranging across 12 divisions in maintenance and inspection procedures resulting in 0 discrepancies during ensuing inspections.
- Developed and managed maintenance procedures resulting in a record high maintenance turnover rate, repairing over 400 discrepancies in less than 1 month.
- Counseled 8 – 15 technicians on a monthly basis as to their performance and any disciplinary actions required for negative behavior.

Critical Thinking

- Developed and implemented new maintenance procedures leading to annual savings of over \$1.5 M.

Leadership Development

- Taught, supervised, and managed 30 team leaders over 2 years, each of whom have in turn successfully managed and led technicians in a new occupational specialty.

Operations Management

- Analyzed, coordinated, implemented, and verified all maintenance operations on a daily basis for over 15 technicians on over 300 pieces of equipment.

Certifications

- Six Sigma Green Belt

Education

Full Sail University

Bachelor of Science (B.S.), Web Design and Development, Fall 2012 – Spring 2015

The Art Institute of Pittsburgh-Online Division

2012 - 2012
